Featured Article: Power BI Training

New to Power BI? Want to learn more about its capabilities? Sign up for one of our Power BI Training Sessions. Power BI Training equips individuals with the knowledge and skills to effectively utilize Power BI reports/dashboards and maximize the value of their data. Our **hands-on guided-learning** helps you understand how to access and navigate through Power BI while exploring some of its's great features.

Success Story

"The ESD Asset Summary Report allows ESD personnel to quickly filter out the information regarding the sanitary sewer system. The filters allow ESD to differentiate between county owned sanitary sewers and private sanitary sewers. The ESD staff can very easily determine the linear feet of each different type of diameter pipe. The information about the sanitary sewer pipes can be filtered by basin, owner type, life cycle status, sum of feet, and sum of miles of sanitary sewer pipe. There are other report metrics which can be viewed in the ESD Asset Summary report such as Impact Site Plans, Accela Permits, Sewer Availability Letters, and Water Providers." - **Ronald Stephens, ESD**
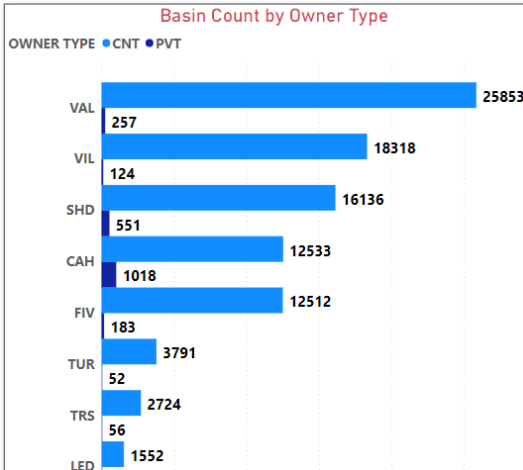

Usage Metrics

BI Report by Department

Department	Count
ITS	14
Finance - Purchasing	12
Finance - AP	2
Finance - BMO	2
Coroner	1
County Mgr	1
Finance - Admin	1
Revenue	1
Roads	1

PBI Training Class Attendees by Department

Department	Count
Finance - Purchasing	19
